Letter from the Collector of Bellary, R.C.No.5048/44 dated 5-8-44:-

(D) Ref:- Board's ref. 2512/44-1 dated 22- 6-44.
G.O.No.Ms. Rev. No.1318 dated 28-6-1944.

A special staff consisting of 1 Minor Irrigation Supervisor, 1 lower division clerk and 1 peon was sanctioned in the G.O. cited above up to 31-12-1944, for the execution of repairs to Minor Irrigation Works damaged by the Cyclone of May 1943 and for the investigation of 2 abandoned tanks in Harpanahalli taluk of this district. The Kadlabal channel work, the revised estimate for which was sanctioned in G.O.Ms.1185 Rev. dated 2- 6-1944 was originally proposed to be executed by the P.W.D but on the suggestio of the Executive Engineer, Bellary the work has been entrusted to the Minor Irrigation Supervisor for execution departmentally.

2. Of the sixteen works damaged by cyclone last year, nine have been completed and six are in progress. These works are nearing completion and are likely to be completed by about the middle of this month. The question of effecting repairs to the remaining one damaged source has been referred to the Executive Engineer, Bellary whose technical opinion in the matter is awaited. The Sub Collector, Hospet reports that the investigation of the two abandoned tanks and the execution of the Kadlabal channel work involve high technical work and that the assistance of a Special Minor Irrigation Overseer to the Minor Irrigation Supervisor for taking levels, preparation of estimates etc. is necessary for the speedy and the proper execution of the works. I agree with him.

3. The period of six months for the employment of a Special Minor Irrigation Overseer and his peon sanctioned in G.O. Nos.Ms. 382 dated 26-2-44 and Ms. 637 Rev. dated 29-3-44, expires on 13-8-44 and 21-8-44 respectively. I recommend that the Board may be pleased to address the Government for the retention of the Special Minor Irrigation Overseer and his peon till 31-12-1944.

4. I am retaining this staff in anticipation of Government's sanction.

Please see pl cy-4 the Rev secy's note above. There is no information regarding the details of repairs that are necessary for the 2 tanks referred to. But it is however reported that the works are of a high technical nature. Attention is invited to para 2 of the P.W.D' Ref printed as Paper II in Govt's 8405 I dated 23-3-28. It is also stated therein that where the number of T.R.S. calculated is large an additional overseer & Lascar may be employed as a temporary measu

Please see also extract of para 2 of the E.E's letter no. 5-6 of G.O.No. 458 P.W. dated 15-3-43. A standard of 2·2·8 mandays (presumably refers to Tanks) has been prepared on an average for a party of 1 supervisor + 1 overseer. No other papers fixing a standard of staff for the T.R.S works are immediately traceable. Rev. Deptt. may, if necessary, consult the C.E. (Irrigation) concerned in the matter. With this information, the file may be returned to Rev.

The staff is required for the investigation of two works + execution of one work. The collection demand may be accepted as reasonable.

with the investigation of two abandoned tanks in Harpanahalli taluk and the execution of the Kadlabal channel in the Dt. till 31-12-1944. Rev have requested P.W.D. to state whether the collector's request for the retention of the staff is reasonable with reference to T.R.S. orders. P.W.D. consider that the collector's demand may be accepted as reasonable.

In the above circumstances this Dept. may agree (Sow Ga. Ji.) to the retention of the staff referred to above till 31-12-44.
